

Advanced Coating Systems
SWISS  QUALITY

No hierarchies. Performance counts.

PLATIT is the worldwide leader in PVD coating technology.
We are a small, international team.
Our coating unit installation numbers are rapidly increasing.

Project Engineer m | f

Technical qualifications and team abilities are deciding factors.
We are not looking for salespeople or MBAs with ties.

Tasks:

- Planning, installation, and testing of small and medium-size coatings systems.
- Technical support for users.
- Participation in research and development projects.
- Location: 50% in Switzerland for preparations, 50% worldwide for installation.

Qualifications:

- Bachelor, Master, or Dipl.-Ing. degree in mechanical or electrical engineering.
- Experience with coatings for cutting tools, molds and dies.
- Working language: English.

You will work directly with the CEO, Dr. Tibor Cselle.
